

Re&Solution is a leading provider of integral real estate, financial, investment and property management services in the Baltic States and Northern Europe. The company provides quality solutions in real estate investment and property management as well as delivers market analysis, valuation and corporate real estate solutions for corporations, retail chains, financial and governmental institutions and high-net-worth individuals. Besides being a qualified property adviser, Re&Solution also provides retail, residential and offices, logistic space brokerage and sales/acquisitions services.

By representing only the interests of its Client and not investing in real estate itself, Re&Solution ensures accurate real estate investment and development or value recovery decisions and maximum results in Lithuania, Latvia, Estonia, Sweden, Norway, Denmark and Finland.

Managing commercial properties covering a total area of about 7.5 million sq.m with a total value of more than 11 billion Euro and handling all major investment transactions across the Baltics, makes us the largest player in the region.

Whether it is property management, real estate investment, valuation or brokerage, with the approach based on combining in-depth surveys into transactions, assessment and consulting with real understanding of the local markets, Re&Solution brings undisputedly worthwhile results to its Customers. Re&Solution is a winner of Euromoney Liquid Awards 2008 in various nominations for the Baltic region. More information: [www.resolution-group.eu](http://www.resolution-group.eu)
